

READY FOR GUIDEWIRE ACCELERATORS FOR GUIDEWIRE INSURANCESUITE

- ✓ Speeds integration with Guidewire
- ✓ Automates processes
- ✓ Increases speed and accuracy

Accelerate your success with OnBase for Guidewire

Working together, OnBase and Guidewire help claims, underwriting and billing professionals get work done more efficiently and effectively. By decreasing your dependency on paper, you reduce manual errors, promote secure file sharing and deliver content in context. With OnBase, you minimize organizational, technical and financial risks by quickly integrating your Guidewire system with the only enterprise content services platform in the Guidewire PartnerConnect Solution program.

PRODUCT ACCELERATORS: PRE-BUILT INTEGRATION CODE AND CONFIGURATIONS

Ready for Guidewire Accelerators for Guidewire InsuranceSuite make it unnecessary to re-invent the wheel for each client engagement, helping property and casualty (P&C) insurance carriers reduce the time, costs and risks associated with incorporating content service capabilities as part of their Guidewire core transformation initiatives. With true point-and-click configuration that minimizes the need for custom coding, OnBase Solution Accelerators reduce your time-to-market for new products or services, decrease capture and document management implementation time and costs by 50 percent or more, and improve project team performance.

More than software alone, OnBase Solution Accelerators represent a package of Guidewire-tested and approved software capabilities, Hyland professional services and ongoing customer support. They feature pre-configured solutions that address common use cases in claims, policy and billing — derived from real-world implementations. You can use these configurable component capabilities as-is for a solution to a particular problem, or extend as needed for a customized solution. Guidewire has reviewed the accelerators to assure adherence to software design principles and quality criteria, and they have been fully tested by both Hyland and Guidewire to confirm they seamlessly integrate with each OnBase and Guidewire release.

Product accelerators:
Pre-built integration
code and configurations

Implementation accelerators:
Proven implementation
methodology aligned and
approved by Guidewire

Upgrade accelerators:
Ongoing improvement

Support accelerators:
Maximizing the value of your
Guidewire investment

Hyland[®]

**IMPLEMENTATION ACCELERATORS:
PROVEN METHODOLOGY ALIGNED
AND APPROVED BY GUIDEWIRE**

Instead of starting the discovery process from scratch, Hyland begins a Guidewire integration implementation project half-way done. Hyland's Guidewire-trained insurance services team utilizes the same Agile methodology used by the certified implementation partners at Guidewire. The experienced team of project managers, solution architects and installation professionals have integrated OnBase with more than 30 Guidewire centers at more than 20 unique organizations. These opportunities have given them the ability to develop an in-depth knowledge of the challenges faced by P&C carriers replacing their legacy systems.

**UPGRADE ACCELERATORS:
ONGOING IMPROVEMENT**

Replacing core systems is a complex process that often requires several years to complete. Hyland provides dedicated, Guidewire-certified product development, quality assurance and technical support resources to ensure the ongoing improvement, functional integrity and upgradeability of Solution Accelerators for the duration of your core replacement initiative and beyond. Hyland charges no additional fees for enhancements to Solution Accelerator product components, nor are there any additional costs for regression testing of Accelerators against new versions of InsuranceSuite.

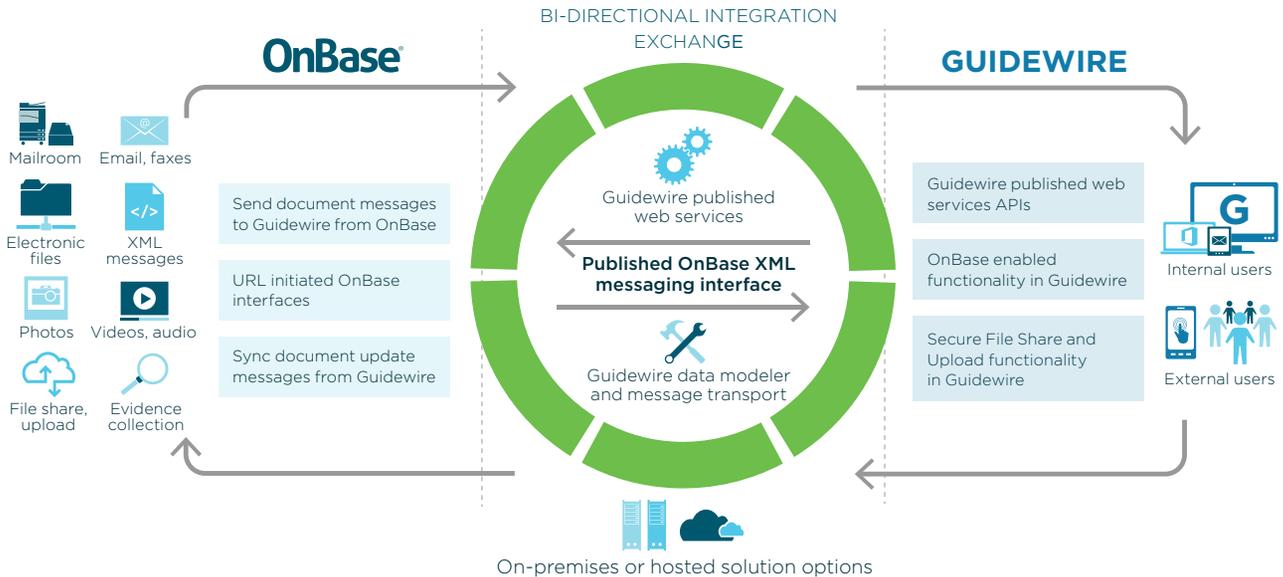

“Inbound and outbound customer claims communication must be handled easily and efficiently if any insurer hopes to compete in our evolving industry. Guidewire ClaimCenter, integrated with OnBase, fulfills that requirement.”

Jeff Obermeyer
Claims Business Manager
Mutual of Enumclaw

SUPPORT ACCELERATORS: MAXIMIZING THE VALUE OF YOUR GUIDEWIRE INVESTMENT

Offering deep Guidewire-specific knowledge and experience, Hyland's dedicated technical support team for Guidewire customers ensures a smooth transition from testing user acceptance to taking the solution live and into day-to-day operation.

With OnBase, you get a content services solution that's *Ready for Guidewire* validated and ready to go. Purpose-built accelerators for the full InsuranceSuite empower you to speed your integration and implementation by up to six months. Now that's acceleration.
