

Mapping YOUR Perceptive Content Journey

Perceptive Content enables comprehensive management of information with long-term benefits for customer experience, business continuity and compliance

The Hyland logo is a square with a vertical gradient from green at the top to teal at the bottom. The word "Hyland" is written in white serif font, with a small trademark symbol (TM) to the upper right of the 'd'.

Hyland™

Perceptive Content is a scalable content services platform designed to help organizations transform internal processes and the customer experience. With over 100 use cases, multiple departments within any organization can benefit from Perceptive Content, anytime, anywhere.

Use this workbook to evaluate your current operations and find out how you can maximize your Perceptive Content investment with Accounts Payable and Human Resources.

ACCESS

Perceptive Content is designed to keep up with modern content workloads and processes. Whether in-office or remote, users can effectively manage relevant business information on their computers and mobile devices. Perceptive Experience Content Apps is a zero-footprint, modern web client platform that gives users the flexibility to access the features they need, when and where they need them.
