

# TAKE A TOUR OF THE CONNECTED HEALTHCARE ENTERPRISE

One company  
Unlimited possibilities **Hyland**<sup>®</sup>

## Accounts Payable

Integrate OnBase with your accounting solution to improve information access, automate processes and eliminate compliance risk – all while extending the value of your existing systems.

## Admitting/Patient Registration

Eliminate paper, filing, copying and storage costs. Securely capture accurate and more complete patient information faster, support compliance and create a better patient registration experience.

## Auditing

Manage the appeal process for external auditors and denial of claims for audits – Medicaid, Medicare or others – with a full document trail and sophisticated tracking features.

## Behavioral Health

Eliminate paper, increase collaboration and provide case management for better patient care while expediting reimbursements.

## Clinical Care

Create a more complete patient record – with clinical images, photos, videos and reports – for an exceptional provider experience and superior patient care.

## Endoscopy

Clinicians quickly and easily build detailed reports with embedded images imported from any endoscope that may be accessed in context through the EMR and forwarded to referring physicians.

## Foundation

Streamline and provide a comprehensive view of gift processing. Reduce the time spent managing agreements to speed delivery of funding while lowering the cost per dollar raised.

## Health Information Management

Allow clinicians and staff access to the content they need from within your EMR to support collaboration, simplify chart completion and minimize manual data entry while helping you meet compliance requirements.

## Healthcare Payer

Process Medicare enrollments faster and more accurately while maintaining compliance. Track all documentation with up-to-the-minute process insight.

## Home Health/Hospice

Empower home health and hospice staff to complete documentation and capture associated wound or environmental photos while in the field for better data, increased collaboration and reduced travel time.

## Human Resources

Decrease the effort and expense of storing and retrieving employee files and increase security and compliance while elevating your service levels.

## Imaging

- Cardiology Imaging
- Dermatology
- Ophthalmology
- Radiology Imaging
- Radiation Oncology
- Ultrasound

Improve clinical image access and collaboration by extending DICOM and non-DICOM content throughout the enterprise with Acuo VNA, NilRead Enterprise Viewing and PACSgear image connectivity solutions.

## Legal

Automate rules-based approval, routing and escalation tasks to quickly create and securely manage contracts, accelerating reviews and approvals and supporting vendor relationships.

## OB/GYN

Capture images and biometry from any ultrasound machine, storing it (along with patient information) in a HIPAA-compliant data repository to create complete, consistent reports and streamline daily workflow.

## Patient Accounting

Increase productivity and accountability by centralizing payment posting tasks across multiple billing systems. Automate routing and denials management with drill-down data analytics, scorecards, pivot charts and executive dashboards for increased visibility.

## Physician Offices

With improved information access and process automation, OnBase streamlines referrals and improves collaboration for a better provider experience.

## Quality Management

Strengthen quality programs with tighter controls over policy and procedure updates, review and acknowledgement. Monitoring tools help you meet quality control objectives and ensure that processes are completed consistently and on time.

## Facilities Management

From scan-store-access to full lifecycle management use a single platform to measure and manage your facilities business processes.

By presenting information within your organization's existing IT solutions – like your EMR, ERP, coding or billing software – OnBase healthcare solutions drive improvements in patient care and service.

A true enterprise solution, OnBase reduces operational costs while supporting better outcomes from the ER to HR.
