*Hyland currently holds a Provisional status for the OnBase product in a SaaS model that is due
to expire in July 2023.  Hyland's intent is to bring forward a Platform as a Service (PaaS) to
support the TX-RAMP requirements. Hyland has reviewed the initial architecture of this PaaS
with the Texas DIR which considered this to be a viable offering within the TX-RAMP program.
Hyland activities for TX-RAMP will focus on the PaaS solution to support Hyland products and the
current Provisional status for the OnBase SaaS will not proceed to the full assessment stage.
However, the PaaS environment will support OnBase as an application outside of the
authorization boundary utilizing the Compliance as a Service functionality within the PaaS.
