EMPLOYEE CONTENT LIFECYCLE MANAGEMENT

How Hyland helps organizations manage the digital employee experience

Hyland offers an end-to-end solution for managing the HR content created at every point of an employee's lifecycle. With capture, workflow, I-9 and E-Verify features, HCM system integrations and retention management capabilities, Hyland’s solution helps organizations automate the various steps within each HR phase. This leads to faster decisions and improved employee productivity.

CAPTURE | During the recruiting phase, documents and data from resumes, transcripts, background check reports and more can be intelligently captured from emails, faxes, file shares or physical documents.

MANAGE | The content is then indexed or classified within the Hyland solution and can be accessed directly from your HCM/HR system (Workday, SAP SuccessFactors, etc.)

PROCESS | Hyland’s HR solution then initiates workflows to drive decisions — all based on your organization’s business rules.

I-9 AUTOMATION | Create flawless I-9s for every employee. Correct and mitigate existing paper I-9s to eliminate risk and achieve better compliance.

RESTRCT ACCESS | Quickly remove access to sensitive documents and other content.

ABODE SIGN INTEGRATION | Automate authorization or approval processes by offering e-signature capabilities for offer letters, employment agreements and more.

POLICIES AND PROCEDURES | Create, approve and distribute policies and procedures. Track delinquency on viewership or completion and send reminders.

HCM INTEGRATIONS | Provide in-context access to HR documents through the familiar interfaces of applications like Workday, SAP SuccessFactors and more.

RECORDS MANAGEMENT | Ensure compliance through time- or event-based records management capabilities. Place holds on content needed for disposition.
