# The OnBase Cloud

What is an ECM Cloud?
For many years enterprise content management (ECM) has been an established and integral part of any organization's information management strategy. A relatively new, but now well understood, arrival to that same strategic table is the concept of "The Cloud." But how do the two combine? What is an ECM Cloud?

This infographic illustrates what an "ECM Cloud" can look like by showing how the OnBase Cloud, OnBase by Hyland's ECM Cloud solution, provides organizations with the security, flexibility, and comprehensive functionality of ECM – but in the cloud.
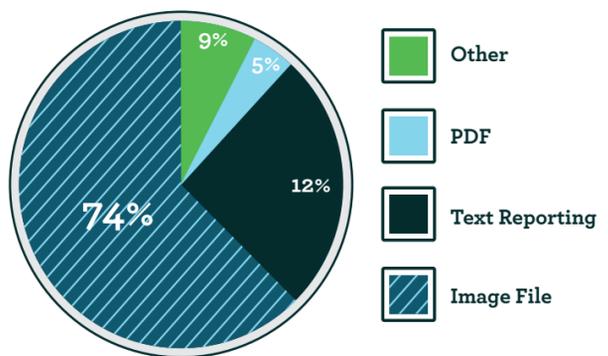

Why Trust the OnBase Cloud?

Experience

OnBase customers have been keeping content in the cloud for more than ten years.

11+ YEARS | **900,000,000** DOCUMENTS

Store All of Your Content

The ECM Cloud is about storing all sorts of content – from the typical image files and PDFs, right through to html, video and audio files.

- 9% — Other
- 5% — PDF
- 12% — Text Reporting
- 74% — Image File

Global Reach

KEY
- Data Centers
- Countries that have OnBase Online customers

640+ OnBase Cloud Customers

22 Countries

6 Data Centers

Access to Your Information and Processes

The ECM cloud is about being easy to use - providing users with access to the information they need wherever they happen to be and on whatever device they are using.

24/7/365

### Security

Did we mention that the OnBase Cloud is secure?

N+1 Redundancy
ISO 27001-certified

Flexible & Scaleable

The ECM Cloud offers users scalability and flexibility, providing the smallest organizations access to the same world-leading ECM solutions as the large ones – and allowing their ECM solution to grow as they do.

- Smallest Customer <1GB
- Largest Customer >69TB
- All OnBase Cloud Customers >364TB
- Infinity

Not Just Storage

The OnBase Cloud doesn't just provide web-based access to content. It enables your organization to perform each of the six key aspects of any successful ECM deployment – capture, access, measure, process, store and integrate. These are the six pillars upon which every OnBase solution is built. Because exactly the same software is used in the OnBase Cloud, users get full access to all of the award-winning OnBase functionality.

The OnBase Cloud is all of OnBase – in the cloud.

| Capture | Process | Access | Integrate | Measure | Store |

The OnBase Cloud is Your ECM Cloud.
