

ShareBase in the Hyland Cloud

SHAREBASE BY HYLAND: SAFE AND SECURE IN THE HYLAND CLOUD

ShareBase by Hyland is an enterprise cloud-based sharing product that provides secure, cloud-based sharing while ensuring your organization retains ownership and control.

ShareBase is deployed in the Hyland Cloud, a secure, privately-managed cloud that is custom designed to serve as a hosting architecture for Hyland's cloud offerings. The Hyland Cloud was first deployed more than 10 years ago for Hyland's enterprise content management (ECM) product, OnBase. Since then, Hyland has continued to pioneer innovative cloud-based solutions, including ShareBase.

KEEP YOUR CONTENT ON LOCKDOWN

Your content is your content—no one else's. It resides in data centers that meet or exceed required security standards, so only you can access it.

THE HYLAND CLOUD CERTIFICATIONS Data Centers

SOC 1 and 3 or 2 audited

ISO 27001:2013 certified

CSA STAR Registrant

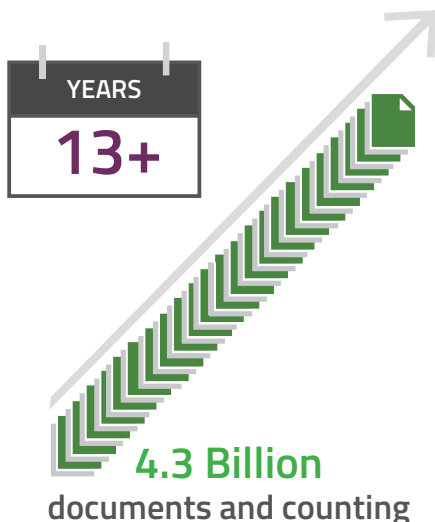

Hyland Cloud Services

SOC 2 and 3 audited

PRACTICE MAKES PERFECT

Years of experience and billions of documents stored in the Hyland Cloud make for a mature and sophisticated solution platform.

HYLAND CLOUD SERVICES

More than 60 certified cloud experts provide dedicated data center support for Hyland Cloud customers 24 hours a day, seven days a week, 365 days a year.

INDIVIDUAL ENCRYPTION ELIMINATES DATA CO-MINGLING

All documents stored in the Hyland Cloud are encrypted using a unique 256-bit AES encryption key. Data is protected while in use, in transit and at rest – and is kept separate from other organizations' content at all times.

DATA DEPENDABLY AVAILABLE

Reliable, accredited data centers provide the highest levels of availability and uptime.

TIA Tier 4:
99.99% uptime

SCALABLE FOR BUSINESS GROWTH

As businesses evolve, their storage needs often grow. Small business to enterprise storage requirements are accommodated in the Hyland Cloud.

All Hyland Cloud customers:
2 petabytes

LIMITLESS INDUSTRY POSSIBILITIES

The Hyland Cloud accommodates organizations with even the toughest regulations and most stringent SLA requirements.
